

Meet The Winners Of SheThePeople's 40 Over 40 Awards

UPDATED ON DECEMBER 15, 2020 | BY TANVI AKHAURI

Society never misses a beat to tell older women that there is only so much they can achieve and should be achieving. But isn't age just a number? **SheThePeople's 40 Over 40 Awards** is trying to remove precisely that barricade. Celebrating women over the age of 40 who have achieved, reinvented themselves, and claimed their space under the spotlight, we are seeking to recognise the talent and spirit that drives so many women forward today.

Here are the winners of this year's awards:

20. Sonal Holland MW, SoHo Wine Consultants

Sonal Holland is one of India's most celebrated wine professionals. In 2016, she was bestowed with the world's most prestigious wine title, Master of Wine (MW) with a present count of only 409 MWs across 30 countries and as the first and only Indian to have done so. A domain expert on the business of wine and spirits in India, she is deeply passionate about drawing global attention to the country's young and exciting beverage industry and make meaningful contributions that forward the cause and culture of the wine industry in India. As a woman entrepreneur who has taken an unconventional path and made a success of it, she encourages women to stand out and become strong leaders in their societies.
